Letter of recommendation for Bennett Bauermeister

Dear Sir or Madam,

Alt-Friedrichsfelde 60
10315 Berlin
www.hwr-berlin.de

my name is Andreas Nastansky, I am a Professor of Quantitative Methods & Mathematics at the Berlin School of Economics and Law and I would like to take the opportunity to strongly recommend Bennett Bauermeister for your trainee's program. As his Professor for quantitative subjects, I have had the pleasure of knowing Bennett for more than two years. He attended three of my courses including Mathematics, Statistics, and Empirical Capital Market Analysis, which he all completed very successfully. I can assure you, that Bennett is a remarkable student who will add value to your class.

Bennett consistently demonstrated reliability and diligence in preparing all required materials and additional resources for my class. He would voluntarily step up and present homework and concepts to his fellows. Bennett maintained an above-average GPA in my class, and I can say without a doubt that he accomplished all tasks with great initiative and a very positive attitude. In class, Bennett was known to be a person who takes on responsibility and successfully showed leadership skills by organizing learning groups and helping fellow students.

Not only for the above-mentioned reasons, I do highly recommend Bennett Bauermeister for a job at your organization, but also because I believe his abilities and his drive will be an asset to your establishment. If you have any questions regarding this recommendation, please don't hesitate to contact me.

Sincerely,

Prof. Dr. Andreas Nastansky
